

LEISURE INDUSTRY LANDLORD'S GAS SAFETY RECORD

Serial No.

CP2
1078401

This form allows the recording of the results of the required checks as defined by the Gas Safety (Installation & Use) Regulations. Chimney systems were inspected visually and checked for satisfactory evacuation of products of combustion, a detailed internal inspection of the chimney system has not been carried out. The information recorded on this form does not confirm that the installation was installed by a person licensed by Gas Safe Register nor that the installation complies with any relevant Building Regulations. For appliances not owned by the Landlord, where only visual checks are undertaken, recording a YES in "Appliance Safe" is based only on a visual check for obvious defects with no physical tests completed.
