Dear Mr Larson

RE: Maytag & Whirlpool brand Laundry dryers
AGA Application No. 16883 / AGA Certificate No. 4774

Further to our finalisation documentation dated 16 April 2018 for the project referenced above, we have since been informed of an error on the gas consumption for models on natural gas. Our current AGA Directory shows 22.1Mj/hour, however it should show 22.2Mj/hour as detailed in Test Report: TR/09/043

We have now corrected this error and I am pleased to enclose

- Updated AGA Certificate **4774**.
- Updated Specification Issue **21**.
- Amended details of the certification entry as it will appear in the "Directory of AGA Certified Products", as found on our website www.aga.asn.au.

Yours sincerely,

Jim Burns
